The Secret Dossier of a Knight Templar of the Sangreal Gretchen Cornwall
Did the Templar Knights survive the arrests on October 13th, 1307?

It is the most controversial question of our modern era made famous by Dan Browns novel the Da Vinci Code.

Author Gretchen Cornwall was contacted by a leading member of the Order whilst researching the history of the Templars in England.

Comte de Mattinata de Medici, Knight of the Lion, revealed his family history and that of the Knights Templar in a series of meetings which became the Secret Dossier.

The Comte's ancestor fled to England in the 17th century from France, his story recorded in fiction by Alexander Dumas. The Man in the Iron Mask was initiated by the English Templars of Cumbria and his family passed down their secrets to the present.

The wild breadth of information reaches from King Arthur in Cumbria, the bloodline of Mary Magdalene & Jesus to new observations on Bernard de Clairvaux the man who put swords in the hands of Cistercian monks.

How did the Templars survive? Are the Free Masons their inheritors? Did they inherit ancient technology that they used to navigate the Atlantic and escape to North America and other undisclosed safe harbours in Britain?

The Comte gifted the author with an energetic map of the world which correlates with the Ordnance Survey National Grid of Great Britain and includes historic and modern Templar sites! This in itself is a mathematical impossibility.

Ley Lines are a popular way to explore the energetic veins of the earth but this is the first time in history that the dragon energy of the earth has been found to correlate to England's famous and mathematically exacting map system.

The Matrix Map of the World is explored in great detail through the lens of Quantum Physics. It is a portal to understanding the ethos behind the current generation of Knights Templar and a wide angle lens as to their thoughts on the future of humanity.

The focal point of the map is the Keystone centred on the high altar of Saint Kentigerns in Caldbeck Cumbria. An unknown history of the Templar Order surrounds the ancient church and reaches back into the Dark Ages of the lost Kingdom of Rheged. Does the once and future king exist?

Conversations with the Templar Knight are woven into the authors own research on the Order and also Mary Magdalene.
An astonishing code was discovered in what can only be described as a medieval Free Masonic Tracing Board. Tracing Boards are thought to be of the 18th century and used to pass on the secrets of alchemy in

male only Free Masonic lodges.

The abbey of Hohenburg sits atop a high vantage point in the Vosges Mountains of Alsace in France. The nunnery was founded by the Merovingian Princess Saint Odile. What did the 7th century Saint Odile transmit to her future counterpart of the 12th century?

Abbess Herrad of Landsberg, contemporary of Bernard de Clairvaux, directed an ambitious project to compile all knowledge of the world in an encyclopaedia titled Hortus Deliciarum or Garden of Delights. Within this massive volume was a coded painting, Lady Philosophia and her Seven Liberal Arts.

Within the illumination is a hidden code which portrays the Queen of Heaven as Mary Magdalene and places her on the throne of Cassiopeia the constellation which revolves around the Northern Star. As the night sky turns the throne appears as a ‘W’ or an ‘M’ the initials of Mary the Magdalene. The ‘M’ became a secret hand sign of recognition for those of the Dragon tradition in Europe whose representation is embodied in the left hand of the Statue of Liberty.

The Knights Templar survived and thrives in Cumbria, a landscape steeped in the mysteries of Celtic Christianity’s Dragon Tradition.
