Breakfast Of Biodiversity: The Political Ecology of Rain Forest Destruction

John Vandermeer, Ivette Perfecto

Breakfast Of Biodiversity: The Political Ecology of Rain Forest Destruction John Vandermeer, Ivette Perfecto
In Breakfast of Biodiversity, John Vandermeer and Ivette Perfecto insightfully describe the ways in which such disparate factors as the international banking system, modern agricultural techniques, rain forest ecology, and the struggles of the poor interact to bring down the forest. They weave an alternative vision in which democracy, sustainable agriculture, and land security for the poor are at the center of the movement to save the tropical environment.

This new, fully updated edition of Breakfast of Biodiversity discusses important new developments in our understanding of rain forest biology and assesses the impacts of a decade of “free” trade on the rain forest and on those who live in and around it.
