John J. Coyle , Robert A. Novack Edward J. Bardi

Management of Transportation , 6th Edition (English Version) John J. Coyle , Robert A. Novack Edward J. Bardi
The Transportation Economics and Management module has three primary areas of emphasis: (1) application of demand, cost, and pricing principles to transportation; (2) the operating, service and financial characteristics of the various modes and types of transportation; and (3) managerial issues in transportation.The objectives for the transportation economics and management module provide an understanding of: 1.The relationship and cost trade-offs occurring between transportation and other logistics functions; 2.How the operating and service characteristics of each mode affect cost, performance, and the products moved; 3.The economic principles that provide a foundation for transportation costing and pricing; 4.Shipper and carrier strategies employed to reduce costs and improve performance.
