The Cure for Consumerism (Orthodox Christian Social Thought Book 2) Gregory Jensen
Despite the rapid increase in human flourishing since the onset of the Industrial Revolution, critics of the market economy insist that it leads inevitably to consumerism and other excesses of materialism. Those who make this indictment—including sociologists, political pundits, and religious leaders—also ignore how economic liberty has brought about one of the most remarkable achievements in human history: an 80 percent reduction in world poverty since 1970. The Cure for Consumerism examines popular prescriptions for addressing consumerism that range from simply consuming less to completely overhauling our economic system. In this lively and accessible book, Rev. Gregory Jensen synthesizes insights from the spiritual tradition of the Eastern Orthodox Church with modern social science to craft a clear understanding of consumerism, to offer real solutions to the problems, and to put faith and economic freedom to work for both the common good and the kingdom of God.
