An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning)

Anne von der Lieth Gardner

An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning)
Anne von der Lieth Gardner
Law and legal reasoning are a natural target for artificial intelligence systems. Like medical diagnosis and other tasks for expert systems, legal analysis is a matter of interpreting data in terms of higher-level concepts. But in law the data are more like those for a system aimed at understanding natural language: they tell a story about human events that may lead to a lawsuit. Statements of the law, too, are written in natural language and legal arguments are often arguments about what that language means or ought to mean.

This study is one of the few research efforts in this fertile area. It is unique in developing a computational model for analyzing legal problems in a way that brings these strands of AI research together and makes sense from a jurisprudential perspective as well.

Gardner first analyzes several positions in Anglo-American jurisprudence and their relevance for work in artificial intelligence. She identifies aspects of legal reasoning that any truly expert system in law must make a place for and suggests a way of decomposing the process of legal analysis that takes these aspects into account. She compares the resulting framework with those used by other legal analysis programs. A solid exposition of current AI techniques follows in chapters covering the author's system (written in Maclisp) for offer and acceptance problems, taken from law examinations, involved in contract law.

Anne von der Lieth Gardner has a law degree and a Ph.D. in computer science, both from Stanford University. *An Artificial Intelligence Approach to Legal Reasoning* inaugurates the series Artificial Intelligence and the Law: Processes and Models of Legal Reasoning, edited by L. Thorne McCarty and Edwina L. Rissland. A Bradford Book.

From reader reviews:

William Sebastian:

Now a day individuals who Living in the era where everything reachable by match the internet and the resources inside it can be true or not need people to be aware of each details they get. How many people to be smart in getting any information nowadays? Of course the reply is reading a book. Looking at a book can help individuals out of this uncertainty Information specifically this An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) book because book offers you rich information and knowledge. Of course the information in this book hundred per cent guarantees there is no doubt in it everbody knows.

Carl Carrillo:

Many people spending their time period by playing outside along with friends, fun activity along with family or just watching TV 24 hours a day. You can have new activity to pay your whole day by looking at a book. Ugh, think reading a book really can hard because you have to use the book everywhere? It all right you can have the e-book, taking everywhere you want in your Smart phone. Like An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) which is keeping the e-book version. So , try out this book? Let's notice.

Wendy Ray:

Is it anyone who having spare time after that spend it whole day through watching television programs or just lying on the bed? Do you need something new? This An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) can be the reply, oh how comes? The new book you know. You are thus out of date, spending your time by reading in this new era is common not a geek activity. So what these publications have than the others?

Constance Argueta:

As we know that book is important thing to add our knowledge for everything. By a book we can know everything we really wish for. A book is a group of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This reserve An Artificial Intelligence Approach to Legal Reasoning (Artificial Intelligence and Legal Reasoning) was filled concerning science. Spend your spare time to add your knowledge about your science competence. Some people has several feel when they reading the book. If you know how big benefit from a book, you can truly feel enjoy to read a reserve. In the modern era like now, many ways to get book which you wanted.
