Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems) B. S. Duran, P. L. Odell
A tremendous amount of work has been done over the last thirty years in cluster analysis, with a significant amount occurring since 1960. A substantial portion of this work has appeared in many journals, including numerous applied journals, and a unified ex position is lacking. The purpose of this monograph is to supply such an exposition by presenting a brief survey on cluster analysis. The main intent of the monograph is to give the reader a quick account of the prob lem of cluster analysis and to expose to him the various aspects thereof. With this intent in mind much detail has been omitted, particularly in so far as detailed examples are considered. Most of the references stated within the text contain examples and the reader can consult them for additional information on specific topics. Efforts were made to include in the reference section all papers that played a role in developing the "theory" of cluster analysis. Any omission of such references was not intentional and we would appreciate knowing about them. Many references to papers in applied journals are also contained, however, the list-is far from being complete. This monograph has been greatly influenced by the work of many people, most notably, J. A. Hartigan, D. Wishart, J. K. Bryan, R. E. Jensen, H. D. Vinod, and M. R. Rao. Several portions of the monograph were motivated by research performed under the support of NASA Manned Spacecraft Center, Earth Observations Division, under Contract NAS 9-12775.

From reader reviews:

Howard Martinez:

Book is to be different for each and every grade. Book for children till adult are different content. We all know that that book is very important for all of us. The book Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems) has been making you to know about other know-how and of course you can take more information. It is quite advantages for you. The publication Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems) is not only giving you more new information but also to get your friend when you sense bored. You can spend your spend time to read your e-book. Try to make relationship with the book Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems). You never sense lose out for everything should you read some books.

Sharron Marty:

Reading a reserve tends to be new life style on this era globalization. With studying you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. Lots of author can inspire their particular reader with their story or maybe their experience. Not only the story that share in the guides. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on this planet always try to improve their talent in writing, they also doing some investigation before they write for their book. One of them is this Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems).

John Harris:

Many people spending their time frame by playing outside with friends, fun activity together with family or just watching TV the entire day. You can have new activity to invest your whole day by reading a book. Ugh, you think reading a book will surely hard because you have to use the book everywhere? It okay you can have the e-book, bringing everywhere you want in your Mobile phone. Like Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems) which is finding the e-book version. So , why not try out this book? Let's notice.

William Kirby:

Book is one of source of expertise. We can add our know-how from it. Not only for students but also native or citizen want book to know the upgrade information of year to year. As we know those publications have many advantages. Beside we all add our knowledge, can bring us to around the world. From the book Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems) we can take more advantage. Don't one to be creative people? To get creative person must love to read a book. Only choose the best book that suitable with your aim. Don't become doubt to change your life by this book Cluster Analysis: A Survey (Lecture Notes in Economics and Mathematical Systems). You can more appealing than now.
