Test of Faith: Science and Christianity Unpacked- Study Guide
Is God a delusion? Are science and Christian faith incompatible? Ten scientists tell their stories. Test of Faith is an innovative new resource designed for use by small groups wishing to explore big issues raised by science for both faith and ethics. It introduces a wide range of hot topics including: * Are science and Christianity in conflict? * Has the Big Bang pushed God out of the universe? * Is evolution compatible with religious faith? * Is cloning ethical? * Are humans no more than biological machines? Test of Faith is designed to enable non-specialists to join the discussion. It allows small groups to unpack these issues, and discuss them at a level and pace that suits the group. It is flexible so that users can choose the topics that they want to cover.
