FROM THE CORE-PLUS MATHEMATICS PROJECT

Mathematics That Makes Sense to More Students
This innovative program engages students in investigation-based, multi-day lessons organized around big ideas. Important mathematical concepts are developed in relevant contexts by students in ways that make sense to them. Students in *Contemporary Mathematics in Context* work collaboratively, often using graphing calculators, so more students than ever before are able to learn important and broadly useful mathematics. Courses 1, 2, and 3 comprise a core curriculum that will upgrade the mathematics experience for all your students. Course 4 is designed for all college-bound students.

Research-Based and Classroom-Tested
Developed with funding from the **National Science Foundation,** each course in *Contemporary Mathematics in Context* is the product of a four-year research, development, and evaluation process involving thousands of students in schools across the country. The result is a program rich in modern content organized to make active student learning a daily occurrence in your classroom.
