Developing and Sustaining Successful First-Year Programs: A Guide for Practitioners Gerald M. Greenfield, Jennifer R. Keup, John N. Gardner

Praise for *Developing and Sustaining Successful First-Year Programs*

"An essential guide to the thorny task of not only developing successful first-year programs, the critical building blocks for student college completion, but also sustaining them over time. It should be at the top of the reading list of all faculty, staff, and administrators concerned with making substantial improvements in student success in the first year of college."
—**Vincent Tinto**, Distinguished University Professor, Syracuse University

"Grounded in scholarly literature and higher education theory, *Developing and Sustaining Successful First-Year Programs* provides a much-needed next-generation resource to advance a comprehensive, integrated, and multi-faceted first-year experience as well as practical guidance to educators who want to become more effective first-year student advocates."
—**Jillian Kinzie**, associate director, Indiana University Center for Postsecondary Research, NSSE Institute

"The authors do an excellent job both of providing a conceptual framework for the first year and of grounding their program descriptions in the work of a diverse range of campuses, providing exemplars of good practice, centered on assessment, in enhancing student academic achievement and persistence. The book will be of use both to policy makers and administrators focused on enhancing student success and to practitioners who will make good use of excellent observations and recommendations."
—**Scott Evenbeck**, president, The New Community College at CUNY

Leigh Brown:

Information is provisions for anyone to get better life, information presently can get by anyone on everywhere. The information can be a expertise or any news even restricted. What people must be consider any time those information which is in the former life are challenging to be find than now's taking seriously which one works to believe or which one the actual resource are convinced. If you find the unstable resource then you have it as your main information we will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take Developing and Sustaining Successful First-Year Programs: A Guide for Practitioners as the daily resource information.

Justin Perry:

Are you kind of hectic person, only have 10 or even 15 minute in your moment to upgrading your mind ability or thinking skill actually analytical thinking? Then you are receiving problem with the book when compared with can satisfy your short time to read it because this time you only find publication that need more time to be read. Developing and Sustaining Successful First-Year Programs: A Guide for Practitioners can be your answer as it can be read by an individual who have those short free time problems.

Patricia Howard:

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just tiny students that has reading's heart and soul or real their leisure activity. They just do what the trainer want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that examining is not important, boring along with can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Developing and Sustaining Successful First-Year Programs: A Guide for Practitioners can make you truly feel more interested to read.
