There’s no better way to enhance your digital photos and to make great-looking videos than with Photoshop Elements and Premiere Elements – two feature-packed programs that work great together. Steve Grisetti, host of Adobe’s Premiere Elements forum and founding member of videomaker support site Muvipix.com, shows you how to use the tools in both of these amazing programs to create photos and videos that are as exciting to make as they are to view. You’ll learn: • How to correct color, erase blemishes and enhance your digital photos to make your good pictures look great! • How to use selections, layers, effects and filters to take full advantage of Photoshop Elements’ powerful tool set. • How to use the new Quick Edit and Guided Edit workspaces to create cool new effects for your photos almost automatically! • How to take full advantage of the Elements Organizer and its media file management and project tools. • How to use all of Premiere Elements 11’s tool set, including the new Time Remapping tool and FilmLooks effects. • The wealth of tools available in not-so-obvious places. • The magic of keyframing, Premiere Elements’ most versatile and powerful tool for creating motion paths and special effects. • How to edit – and even create your own – custom DVD and BluRay disc menu templates.
