Philip Wylie

Tomorrow! Philip Wylie
A chilling *what if?* tale of nuclear apocalypse in the American heartland

Philip Wylie's gripping parable *Tomorrow!* describes a time in America when doomsday threatens to dawn at any moment. A nation's worst nightmare is made palpably real, seen through the eyes of a diverse group of ordinary citizens in two adjacent Great Plains metropolises. Wylie brings this holocaust to life with blood-chilling detail in his extraordinary science fiction classic whose power to shock and terrify is as strong as ever more than fifty years after its original release.

An unthinkable tomorrow is on the horizon. For the citizens of the neighboring Midwest cities of Green Prairie and River City, today marks the end of everything. Some are prepared to face the unthinkable; some refuse to believe it could ever happen. As the winter holidays approach, two young lovers share their dreams for the future, a corrupt bank officer fears the exposure of his crimes, and a wealthy matron, concerned only with status and prestige, wonders how she can ensure a marriage between her daughter and the scion of one of the city's most important families. But on Christmas Day, when a terrible fire lights up the sky, all these petty human concerns become meaningless. And the destruction and horror wrought on that awful morning will only be the beginning of the end.
