Building Ship Models: Patterns and Instructions for a Clipper Ship and a Whaler George B. Douglas, Joseph T. Higgins, Francis A. Davis
Clearly written text, detailed illustrations, and full-size working plans provide novices and experienced model builders with all the information they need to create exact replicas of two 19th-century sailing ships—the Benjamin F. Packard, a classic American clipper, and the Alice Mandell, a famous whaler. The one-volume edition of two rare model-building manuals also devotes chapters to ship's rigging (ancient and modern) and abundant information on clippers and old-time whaling ships. A treasury of essential information for hobbyists, model builders, and devotees of the great age of sail.
