The Complete Australian Cattle Dog John Holmes, Mary Holmes
The Australian Cattle Dog was developed as a breed by stockmen who wanted a tough, working dog who could drive cattle in the harsh environment of the Australian outback. A number of different dogs were used to produce the ideal type, and these included the native Dingo, the Collie, imported from Britain, and the Australian Kelpie. The authors trace the origins of this tough, intelligent working dog from the Australian outback to the first imports to reach North America, Britain and the rest of Europe. All aspects of caring for the Australian Cattle Dog are covered, such as feeding, exercise, breeding and rearing, and there is a special section on the principles of training and the working role of the Australian Cattle Dog.
