Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference

Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference

The annual Neural Information Processing Systems (NIPS) conference is the flagship meeting on neural computation. It draws a diverse group of attendees -- physicists, neuroscientists, mathematicians, statisticians, and computer scientists. The presentations are interdisciplinary, with contributions in algorithms, learning theory, cognitive science, neuroscience, brain imaging, vision, speech and signal processing, reinforcement learning and control, emerging technologies, and applications. Only twenty-five percent of the papers submitted are accepted for presentation at NIPS, so the quality is exceptionally high. This volume contains the papers presented at the December, 2004 conference, held in Vancouver.

From reader reviews:

Robert Miller:

This book untitled Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference to be one of several books this best seller in this year, that's because when you read this e-book you can get a lot of benefit in it. You will easily to buy that book in the book retail outlet or you can order it through online. The publisher with this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Touch screen phone. So there is no reason to you to past this reserve from your list.

Jacob Lehr:

The e-book untitled Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference is the e-book that recommended to you to see. You can see the quality of the e-book content that will be shown to you. The language that article author use to explained their way of doing something is easily to understand. The author was did a lot of analysis when write the book, and so the information that they share to you personally is absolutely accurate. You also could get the e-book of Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference from the publisher to make you much more enjoy free time.

Kelly Cruz:

Spent a free time and energy to be fun activity to do! A lot of people spent their sparetime with their family, or their particular friends. Usually they doing activity like watching television, about to beach, or picnic inside park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your current free time/ holiday? Could possibly be reading a book might be option to fill your no cost time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to consider look for book, may be the reserve untitled Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference can be fine book to read. May be it can be best activity to you.

Theodore Dubose:

Do you like reading a publication? Confuse to looking for your chosen book? Or your book seemed to be rare? Why so many concern for the book? But just about any people feel that they enjoy to get reading. Some people likes studying, not only science book but additionally novel and Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference or others sources were given information for you. After you know how the fantastic a book, you feel would like to read more and more. Science publication was created for teacher or maybe students especially. Those publications are helping them to add their knowledge. In various other case, beside science reserve, any other book likes Advances in Neural Information Processing Systems 17: Proceedings of the 2004 Conference to make your spare time more

colorful. Many types of book like here.
