Boxing (Naval Aviation Physical Training Manuals) U.S. Naval Institute
Boxing, originally published in 1943, was compiled by boxing champions and coaches to teach World War II cadets how to take a punch and fight back viciously, calmly and with deadly intent. The manual was so successful that the U.S. Naval Institute reissued it several times, and copies of the original manual are still in high demand. Get yourself into top fighting shape by following the combat-proven boxing drills used by generations of naval recruits.
