Captured!: The Betty and Barney Hill UFO Experience Stanton T. Friedman
The 1961 UFO abduction of Betty and Barney Hill stirred worldwide interest, because of the book The Interrupted Journey, the subsequent media coverage, and a 1975 TV movie. The case is mentioned in almost all UFO abduction books. It also became a target for debunkers, who still attack it today. But the complete story of what really happened that day, its effect on the participants, and the findings of investigators has never been told ... until now. In Captured!, you'll get an insider's look at the alien abduction, previously unpublished information about the lives of the Hills before and after Barney's death in 1969, their status as celebrities, Betty's experiences as a UFO investigator, and other activities before her death in 2004. Kathleen Marden, Betty Hill's niece, shares details from her discussions with Betty and from the evidence of the UFO abduction. She also looks at the Hills' riveting hypnosis sessions about their time onboard the spacecraft. In addition, coauthor, physicist, and ufologist Stanton T. Friedman, the original civilian investigator of the Roswell Incident, reviews and refutes the arguments of those who have attacked the Hill case, as well as the star map that Betty Hill saw inside the craft and later recreated.
